**Best known for our eco-friendly refurbished ATMs, MVP offers a robust line of products including branch transformation products such as ITMs and cash recyclers, as well as ATM parts, outsourcing and managed services.**

Specializing in providing high quality, affordable products and services since 2000, MVP has the experience and know how to guide you on the best solutions for your financial institution.

## **ATMs & ITMs (Interactive Teller Machines)**

Consumers are increasingly looking for more dynamic self-service solutions, without giving up access to the accountholder services they are used to seeing at the branch. Full function ATMs and ITMs combine the best of both worlds. MVP offers new and refurbished solutions to fit your financial institution's service and budget needs.

## **Refurbished ATMs & ITMs**

Rapidly changing technologies and regulation updates make choosing refurbished equipment a game-changer. The re-purposing of existing components allows banks and credit unions to purchase compliant and up-to-date refurbished machines at much lower prices – and do their part for our fragile environment.

- Up to 40% lower cost
- 100% compliant equipment
- Field-tested components
- Reduced environmental impact
- Safer parts disposal
- Up-to-date hardware and software

## BRANCH TRANSFORMATION

As more consumers turn to self-service for their needs, financial institutions need to respond. With a full line of branch transformation products, MVP has the right combination of tools you needs to increase efficiency.

- ATMs & ITMs
- Banking kiosks
- Teller cash recyclers
- Coin machines
- Instant issuance cards
- Self-service cash recyclers

## ATM OUTSOURCING & MANAGED SERVICES

There is a lot of time, energy and cost that goes into running an ATM fleet. MVP can help you eliminate time-consuming tasks with our custom ATM programs. Whether your institution wants to sell the ATMs or just wants a one-stop managed service provider, MVP has options to fit your needs.

- Guaranteed compliance
- ATM security
- Telecommunications
- Reporting
- Terminal processing
- 1st & 2nd line maintenance
- Cash forecasting
- Cash delivery and scheduling

## SECURITY PRODUCTS

While security threats such as smash and grab, card skimming, shimming and ATM jackpotting continue to be a concern, the proper level of technology and prevention strategy can help lower your risk of attack. MVP has a variety of options available to help you manage your security challenges.
